510(k) SUMMARY

DENTSPLY International
Susquehanna Commerce Center West
221 West Philadelphia Street, Suite 60
York, PA 17405-0872

CONTACT: Helen Lewis

DATE PREPARED: February 2, 2006

TRADE OR PROPRIETARY NAME: TEMPORARY CROWN AND BRIDGE MATERIAL

CLASSIFICATION NAME: Temporary crown and bridge resin. 872.3770

PREDICATE DEVICES: Luxatemp Automix, K924830

DEVICE DESCRIPTION:

The TEMPORARY CROWN AND BRIDGE MATERIAL is a two-component, methacrylate-based material. The volume mix of this automixed material is a 1:1 ratio. The unit dose delivery system minimizes the potential risks associated with asepsis and the need for disinfection.

INTENDED USE:

TEMPORARY CROWN AND BRIDGE MATERIAL is indicated for direct fabrication of provisional (limited term) veneers, inlays, onlays, crowns or bridges used in indirect restorative procedures.

TECHNOLOGICAL CHARACTERISTICS:

The TEMPORARY CROWN AND BRIDGE MATERIAL is a self-curing, provisional material that is initiated by mixing the catalyst and base. The material is composed of methacrylates, plasticizer, initiators, fillers, pigments, and a stabilizer. All of the components found in TEMPORARY CROWN AND BRIDGE MATERIAL have been used in legally marketed devices or were found safe for dental use. We believe that the prior use of the components in legally marketed devices, the performance data provided, and the biocompatibility data provided support the safety and effectiveness of TEMPORARY CROWN AND BRIDGE MATERIAL for the indicated uses.

Re: K060293
Trade/Device Name: Temporary Crown and Bridge Material
Regulation Number: 21 CFR 872.3770
Regulation Name: Temporary Crown and Bridge Resin
Regulatory Class: II
Product Code: EBG
Dated: February 03, 2006
Received: February 06, 2006

Dear Ms. Lewis:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

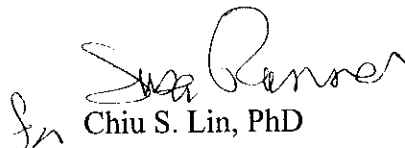

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (240) 276-0115. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21 CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address <http://www.fda.gov/cdrh/industry/support/index.html>.
